DETAILED ACTION

1. Claims 1-163 are pending in the application.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 38-43 and in part 1-37, 68-70 and 151-154, drawn to A method for separating morphine.

Group II, claim(s) 44-67 and in part 1-37, 68-70 and 151-154, drawn to A method for separating codeine.

Group III, claim(s) 71-76 and in part 1-37, 68-70 and 151-154, drawn to A method for separating oripavine.

Group IV, claim(s) 77-116 and in part 1-37, 68-70 and 151-154, drawn to A method for separating thebaine.

Group V, claim(s) 117-148 and in part 1-37, 68-70 and 151-154, drawn to A method for separating narcotine.

Group VI, claim(s) 149, 150 and in part 1-37, 68-70 and 151-154, drawn to A method for separating papaverine.

Group VII, claim(s) 155-163, drawn to A system for separating narcotic alkaloids.

3. The inventions listed as Groups I through VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The inventions I through VII are a combination of different categories of claims; see PCT Administrative Instructions Annex B Part I (d) (e).

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charanjit S. Aulakh whose telephone number is
